SUMMARY

B.Tech IT student (**CGPA: 8.29/10**) at Anna University with hands-on experience in **Python, Flask, and Machine Learning**. Built two end-to-end projects — **a Food Waste Reduction Platform and a Credit Card Fraud Detection System** — both hosted on GitHub. Certified in AI Fundamentals and Advanced Python (Simplilearn, 2026). Seeking a Python Developer Internship to apply skills in a real-world environment.

TECHNICAL SKILLS

- | | | | |
|---------------|-----------|----------|---------------|
| • Python | • Flask | • HTML | • Pandas |
| • Java Script | • My SQL | • CSS | • Numpy |
| • SQL | • jinja 2 | • SQLite | • Git & Gitub |

PROJECTS

Food Reduction Management Platform

April 2025 - Jun2025

- Developed a Food Waste Reduction Platform using Python Flask and SQLite to connect food donors with NGOs.
- Achieved improved fraud detection accuracy, helping reduce financial losses and enabling faster identification of suspicious transactions.

Skills: Python, Flask, SQLite, HTML, Jinja2, Git, GitHub, CRUD Operations

EDUCATION

B.Tech - Information Technology (IT)

2023 - 2027

Anna University / Thirumalai Engineering College

CGPA : 8.29 / 10

ACHIEVEMENT

Certifications 1 : AI Fundamentals Certificate - Credential in foundational Artificial Intelligence concepts

Certifications 2 : Advanced Python Certification -Simplilearn SkillUp (April 2026)

ADDITIONAL INFORMATION

Languages : Tamil , English
